

Altibox Flex General Agreement

In collaboration with Viken Fiber, Løren Vel has produced a new agreement that gives you more flexibility as a resident! The Altibox Flex General Agreement means that each resident now has the opportunity to choose the package that best suits them!

As a resident, you have the opportunity to choose between the following options:

- TV and Internet
- TV
- Internet

The next few pages contain an overview of the content in the packages.

You make your own choice of entertainment

Most people want to choose their TV content themselves – and with Altibox, you can do just that. You can choose your favourite content, whether it's news, sports, series or movies that appeal to you the most.

Using a simple points system, you can select in and out the channels and TV packages you want via My Pages on altibox.no. The TV package contains 15 fixed channels that you don't use up points on. How you decide on the remaining channels depends upon your own TV experience. On the following pages, you'll find an overview of what you can choose from and how many points each package contains. Additionally, it is of course possible to buy more points if you want to choose even more content.

Additional Services

20 extra points – NOK 59 per month when you sign up for 12 months, and then NOK 79 per month

50 extra points – NOK 99 per month when you sign up for 12 months, and then NOK 139 per month

Downloads and programme archive (500 hours) – NOK 149 per month

Extra TV decoder – NOK 59 per month

Wifi Plus – NOK 990

Landline telephone – NOK 100 per month

New decoder

Along with the new Altibox TV, comes a brand new decoder. It's smaller than any of the decoders we have previously delivered. The remote control unit included is easy to use and has fewer buttons than the one you have today. The good news for those who like to have a tidy home is that you no longer need a clear line-of-sight between the remote control and the decoder. So, the little decoder box can be hidden behind the TV or in the TV bench.

You can read more about Altibox TV at altibox.no/tv.

COMPLETE FREEDOM OF CHOICE

Altibox Flex gives you the freedom every day to see what you want, when you want and how you want. See your content on your TV, PC/ Mac, Apple TV, mobile or tablet - when it suits you.

ARCHIVE SERVICES

Go to start -
Using Go to start! you can restart most programmes. Perfect when you arrive just a little bit after the programme has started.

Programme archive -
Programmes from the last seven days are stored in an archive - without your having to set "download" on.

Download offline -
See downloads, films and series both online and offline in the Altibox app. Take along with you the downloads or films you have bought, wherever you want.

STREAMING SERVICES

HBO Nordic, Disney Movies On Demand, ABC Studios, Disney Channels XTRA and FilmFavoritter can be selected as part of your content.

FOR SPORT LOVERS

ALT FRA NRK (EVERYTHING FROM NRK)

NRK and NRK Supers rich archives are integrated into the TV portal. So now you're just a click away from hours of first class entertainment!
